OUR SCHOOL

OUR HISTORY AND COMMUNITY

Colégio Miguel de Cervantes was founded in 1978 by a group of Spanish executives who settled down in São Paulo, Brazil, during the 60s. Their dream was to create a cultural and educational center focused on a bilingual curriculum, including a multicultural identity and aspects to be developed throughout the school grades, from Early Childhood to High School.

Colégio Miguel de Cervantes is a private school that receives students from the city of São Paulo and its surroundings. The majority of the student population is Brazilian. However, 20% of them have dual nationality (Brazilian-Spanish). We also have 10% foreign students, in general from Spanish America speakers.

Our school is part of the UNESCO Associated School Networks, a network of associated school projects of the United Nations Educational, Scientific and Cultural Organization, since 2014.

Accredited Counsellor by THE (Times Higher Education) and IC3 Institute

EDUCATIONAL PROPOSAL

Colégio Miguel de Cervantes is an international school, which grants its students three diplomas: the Brazilian High School certificate at the end of 12 years of basic education, as well as the Spanish High School Diploma (Bachillerato). In addition to both diplomas, the school offers the IB Diploma Program (International Baccalaureate).

Colégio Miguel de Cervantes is part of a global community of schools committed to the **development of young people with solid knowledge and values, highly motivated with their education and prepared to contribute to the construction of a more peaceful and harmonious world.**

OUR HIGH SCHOOL

The pedagogical work of Colégio Miguel de Cervantes High School caters for the multiple formative dimensions of young people, their growth as ethical human beings, their preparation for the labor market and the development of skills and abilities that allow autonomous and continuous learning through life.

In addition to the regular subjects, they have the opportunity to develop:

Projects in different areas such as Solidarity Championship, “Lacre Solidario” (Solidarity sealing wax), ReciclArte (recycling of school supplies), Bazaar Gerando Falcões, “Tapas por Patas” (Caps for Pets), Tok Object Generator, Fauna CMC, Vegetable Garden y Compost CMC, campaign to collect toys, food, coats, among others.

Extracurricular activities such as Academic Olympics, Cultural and Social Activities, Art and Music Festival, Science Fair, Debate Clubs, MiguelMUN, Dulcinea Collective, Youth for Good, Friendship Circle, Sustainability Club, Sports Championships, Educar Master BMF & BOVESPA, Pauliceia Desvairada (theatre, cinema, concerts, art exhibition), social and volunteer projects, entrepreneurship course and preparatory courses for admission to Brazilian (ENEM) and Spanish (Selectividad) universities, preparatory course for TOEFL (Test of English as a Foreign Language) and DELE (Diploma of Spanish as a Foreign Language); and simulated for the SAT/ACT exams (American and English-Speaking College Access Tests). Advanced courses in mathematics, physics and written production are also offered for students with an academic achievement above 7.

Extracurricular courses in different areas such as: Art, Dance, Martial Arts, Sports, Foreign Language, Music and New Technologies. They are offered to complement and enrich academic education through learning experiences that prepare students for an increasingly dynamic and complex world.

Community Service, developed in our Social Project “Cervantes Solidário”.

Study trips, during these trips the students have to develop an interdisciplinary project that stimulate responsible activity in relation to the environment and society. The students of Colégio Miguel de

Cervantes also participate in a **cultural trip to Spain** in the 9th grade, during the month of July, with the aim of experiencing aspects related to the Spanish language and culture, they also have the opportunity to participate in different projects and activities of social services. The students participate in study trips in Brazil and/or other countries, mainly Spanish or English-speaking countries.

Summer Camps are also offered during the month of July (winter vacations) with sister institutions and **mini-exchanges** during the summer vacations (December/-January).

Thanks to its rich and extensive proposal, Colégio Miguel de Cervantes is recognized for its academic excellence, for its cultural diversity, as well as for the wide range of extracurricular courses, which allows the student to have a comprehensive education with emphasis on the areas of Languages, Natural Sciences, Mathematics, Human Sciences and their respective technologies.

ACADEMIC EXCELLENCE

According to PISA-S (Pisa for Schools), our result as an educational center is among the five best results in the world, placing 3rd in reading, 4th in mathematics and 5th in science. Likewise, in the sum of the results we were in third place and well above the average of Brazil and Spain.

FACULTY

All teachers have at least a bachelor's degree and 45% have a master's and/or doctorate. Most of them speak, in addition to Portuguese, Spanish and/or English.

Each department has a coordinator who is responsible for supervising and constantly analyzing the content, ensuring that it is being taught in an integrated manner and based on tools that encourage creativity and motivation among students. Some departments also have interns who assist the teachers, and in the language subjects they also have external reviewers for the written expression activities.

The structure also has a pedagogical counselling and an educational counselling, as well as a tutor teacher in each group. Likewise, the teaching team has the support of an educational technology team.

The school is equipped with technological support tools for distance study, which allow the students to continue increasing their knowledge outside the classroom. From 6th grade on, there is a technological immersion and it is thanks to these resources and practices that, during the pandemic, face-to-face classes were transferred to the online modality without difficulty, considering that students and teachers already had sufficient technological knowledge and skills to that change.

TUTORSHIPS (Division)

As an important figure in the education process of our students, Colégio Miguel de Cervantes has within its pedagogical structure a tutor/division teacher for each group, one of our hallmarks. The role of the tutor is to respond to the need to educate specific, private and individual people, whose has unique problems, different motivations and characteristics. Tutorship supposes an accompaniment to the group students in a class and at the same time to each one of them in particular through reflection, analysis and discussion, in order to promote the creation of a school environment where integration, participation and improvement of the social coexistence are encouraged based on respect, peacefully by resolving differences through dialogue, establishing communication mechanisms with peers and teachers, as well as with family members. In this way, it constitutes support for the formation of adolescents based on the expression of their personal and academic concerns, needs and expectations.

EVALUATION SYSTEM

The evaluation system includes the student's academic performance and the effort made during the learning process, as well as their **social behaviour**. It is represented by concepts and a numerical rating scale.

S (sufficient)/5, on a scale of 0 to 10, is required as the minimum final grade for the student to be promoted to the next course.

The evaluation has a **continuous nature**, being considered an inseparable element of the process and, as a consequence, in a **formative, regulatory and guiding nature**, improving both the aspects and the results of the educational intervention.

Although our institution does not use "rank", we provide the GSD (Grading Scale and Distribution) when students apply to universities abroad.

GRADE SYSTEM

Grading Scale	Mención Scale	Definición Definition	Referencia Numérica Numerical Reference		
A	Sb	Sobresaliente Excellent	El alumno alcanzó la totalidad de los objetivos propuestos. The student achieved all the proposed learning objectives.	9 - 10	PASS
B	N	Notable Very Good	El alumno alcanzó la mayoría de los objetivos propuestos. The student achieved the majority of the proposed learning objectives.	7 - 8,9	
C	B	Bien Good	El alumno alcanzó parte de los objetivos propuestos. The student achieved part of the proposed learning objectives.	6 - 6,9	
	S	Suficiente Sufficient	El alumno alcanzó los objetivos mínimos propuestos. The student achieved the minimal proposed learning objectives.	5 - 5,9	
D	I	Insuficiente Insufficient	El alumno no alcanzó los objetivos propuestos. The student did not achieve the proposed learning objectives.	3 - 4,9	FAIL
F				0 - 2,9	

2024 CLASS ACHIEVEMENTS

100% of the students enrolled in the 2024 class (a total 146 students) graduated. For the class of 2025, we have 130 students who are due to graduate at the end of the school year.

It is important to note that Colégio Miguel de Cervantes is a **fairly demanding educational center**, the average of the grades during the 12th grade was:

Average of the ten best 12th grade students 9,22

Average of all the 12th grade students 7,30

In accordance with the American system table of equivalence of grades, below are the numerical values of each concept and the percentage of 12th grade who have obtained each grade during the 2024 academic year.
